Report on Slow learners and Advanced learners

The strategy for slow and advanced learners is achieved through;

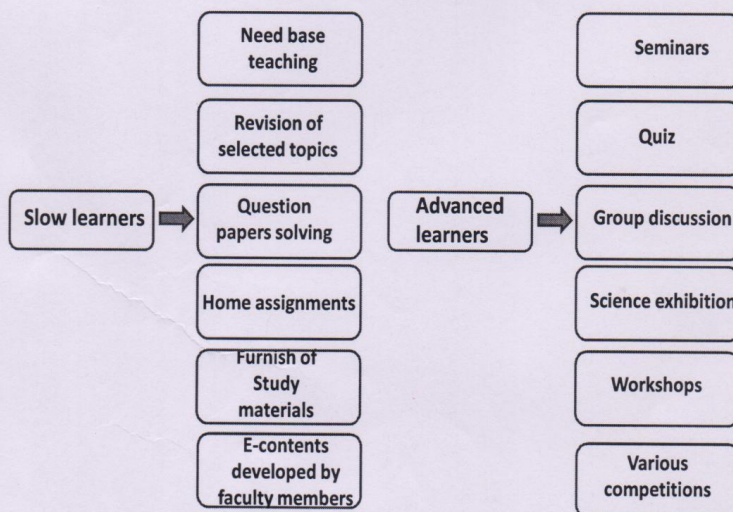

1. Identification
2. Planning and implementation
3. Outcome

1. Identification of Slow learners and Advanced learners

The slow learners and advanced learners are identified on the basis of total IA marks obtained in the First semester. The students who scored less than 50% of the total IA marks are considered as slow learners and the remaining students are considered as advanced learners.

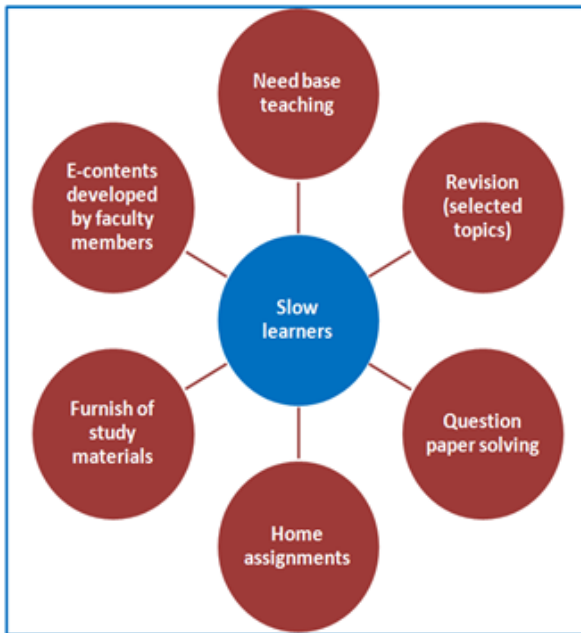

2. Planning and implementation

Strategies adopted for Slow and Advanced learners

Slow & Advanced Learners

2.1. Strategies adopted for Slow learners

Through counselling the weak performance area of the subject is identified and then the following methods are adopted.

- a. Through need base teaching
- b. Revision of selected topics
- c. Discussion of important questions from the previous year question papers
- d. Home assignments
- e. Furnish of Study materials
- f. Slow learners are encouraged to view oftenly and learn by observing E-contents developed by faculty members.

2.2. Strategies adopted for Advanced learners

Advanced learners are encouraged to take active part in

- Science exhibition
- seminars
- workshops
- Quiz
- Group discussion
- Various competitions.

3. Outcome:

3.1.1 Outcome of advanced learners;

By the above strategies made, the students willingly participated in various competitions conducted by the parent and other institutions and have procured knowledge and even prizes too.
