

Management of various types of degradable & nondegradable waste.

Solid Waste Management:

- Usage of plastic bags is discouraged within the campus.

- The dry solid waste is put by the respective departments and hostels in a collection pit located within the campus. This is regularly collected by municipality vehicle.

- Library produces huge paper waste such as old books, magazines, and newspapers. For a year they produce almost 3600 newspapers and this heap of paper we give it to the scrap people

Liquid Waste Management:

Waste water from the college campus is connected to drainage system.

E- Waste Management:

All unused E-waste such as computers, printers, cables, CD's mouse and keyboard etc is collected from the entire department and that is collected by one of the person from head office and they disposed through vendor as per guidelines for implementation of E-waste.

Hazardous Chemical Waste Management:

In Chemistry department hazardous chemicals like Benzene, Toluene, strong acids and bases can be disposed in soak pit made up of sand, charcoal and stones in a pit. This soak pit is 10-15 feet away from the lab.
